Job offer: Circular economy and waste prevention engineer (M/F/X)

As part of its growth strategy, RDC Environment is looking for an engineer (M/F/X) with experience in the field of circular economy, waste prevention and management.

Who we are

Since 1992, RDC Environment has been guiding decision makers towards sustainable development and the circular economy. Thanks to the quality of our studies and recommendations, RDC Environment has become a reference in Belgium, France, and for the European Commission in the following fields:

- Environmental assessments of products, organisations, and public policies through standardised methods (Life Cycle Assessment);
- Circular economy, thanks to our expertise in resource and waste management, as well as waste prevention, for both the private and public sectors;
- Assessment of the three pillars of sustainable development (Cost Benefit Analysis).

In our work, we strive to apply our values:

- Acting with integrity;
- Ensuring the quality of our work;
- Adding value to our clients' projects as part of our continuous improvement strategy;
- Guaranteeing customer satisfaction is the key to our success;
- Working together as a team.

RDC Environment is a dynamic and united team of engineers and economists, experts in sustainable development.

Your mission

- Production:
 - Performing circular economy studies autonomously, mostly in France and in Belgium;
 - Managing projects from the signing of the contract to the completion of the service;
 - Coming up with new ideas;
 - Ensuring the quality of the work and respecting the deadlines;
 - Supervising consultants.

- Commercial:
 - Developing commercial and technical proposals (in collaboration with the management team);
 - Participating in commercial meetings with customers.

The ideal candidate

- You graduated as an engineer in the field of environment or a related field (energy, agronomy, chemistry, etc.);
- You have good knowledge of the regulatory frameworks dynamics surrounding the circular economy and environmental stakeholders in Belgium, France and/or at the European level. You have knowledge of the public policies and related tools;
- You have proficiency in Microsoft Office tools (Word, Excel, and PowerPoint);
- You have good writing and synthesizing skills in English and French;
- You can make written and oral presentations;
- You have good listening, interpersonal, oral, and organisational skills as well as autonomy, adaptability, and rigor;
- You thrive both autonomously and as part of a team. You can self-evaluate and solicit the team when needed;
- You show initiative ;
- You have a serious and caring attitude. You are cheerful and positive;
- You have a valid driver's licence;
- A sensitivity to sustainable development is greatly appreciated;
- Knowledge of an additional language (Dutch in particular) is an asset.

What we offer

- Location: Brussels. Mainly in the office with occasional business meetings outside.
- Job type: Full time, permanent.
- Income: according to skills and experience.
